

T54: Find pets by status — available

Test Labels

Status	Type	Priority	Estimate
Passed	Functional	High	None
AI Automated Test	References	Automation Type	Is Automated
None	None	None	No
Test Case Labels			
TC-03			

Preconditions

At least one pet with status 'available' is present.

Steps

- 1. Send GET /pet/findByStatus?status=available
- 2. Verify response is a non-empty array
- 3. Verify all returned pets have status 'available'

Expected Result

Status 200. Array of pets returned. Every pet object has status = 'available'.
